

My Letter to Santa

Dearest Santa, I know that you, Mrs. Claus and the elves are busy answering letters and making toys

Getting the reindeer ready and loading the sleigh to deliver them to the girls and boys

Well, my children are grown up now with families of their own and they live far away

When I first moved into the elders home they used to visit or call me at least once a day

Over the years their lives seem to have gotten busier and they have forgotten me

Some of my fellow elders felt the same way as we share our memories while decorating the tree

Yes, Santa though time and age are not on my side I still believe in the magic of Christmas and you

And on Christmas eve as you make your deliveries could you remind my family that I still love them too
